

Summer Scavenger Hunt

Tettegouche State Park

Spot as many items as you can. Then submit an entry at <https://www.parksandtrails.org/hunts/entries/> for a chance to win a prize. Submit your entry by September 7. Limit of one entry per child per scavenger hunt.

Kids Name: _____ Age: _____

<input type="checkbox"/> Outdoor Fireplace Can you find the outdoor fireplace? If you found it, what color are the chairs and table next to the fireplace? _____	<input type="checkbox"/> Find a mammal Chipmunks, squirrels and rabbits are common mammals you will find at the park. What mammal did you find? _____
<input type="checkbox"/> Mushroom Did you know the Minnesota State Mushroom is the Morel Mushroom? Mushrooms come in all shapes and sizes and colors. Look carefully in the woods, near dead wood, logs and stumps. Where is it growing? _____	<input type="checkbox"/> Evergreen Tree Evergreen trees like pine, spruce and cedars stay green all year long. Evergreen trees provide shade and a habitat for birds and small animals. They also produce seeds from their cones that many birds and wildlife eat. List the general area or trail where you found one. _____
<input type="checkbox"/> Bird 140 species of birds, including robins, blue jays, chickadees, grouse, finches, wood-peckers, and water birds, are common in Tettegouche State Park. What color was the bird that you found today? _____	<input type="checkbox"/> Insect Dragonflies, butterflies, bees, flies and mosquitoes are just a few of the insects you can find outside. What kind of insect did you find and how many legs does it have? _____
<input type="checkbox"/> Dandelion Dandelions are important food for bees and butterflies. They are one of the earliest flowers to bloom in the spring and provide food for bees and butterflies before other sources of pollen and nectar are available. How many dandelions do you see? _____	<input type="checkbox"/> Spider Web A spider web is a sticky net that spiders make from silk to trap their prey. When insects fly or crawl into the web, they get stuck and the spider eats them. Spiders make different webs in different places to trap many kinds of prey, like in the grass or between branches in a tree. Where did you find a spider web? _____
<input type="checkbox"/> Hiker(s) Did you know there are 23 miles of trails in Tettegouche State Park? The trails will take you to high cliffs along the Lake Superior shoreline, along the Baptism River and to 3 scenic waterfalls plus loops that wind around interior lakes. How many hikers are in your group today? _____	<input type="checkbox"/> Waterfall(s) Did you know that Tettegouche State Park has 4 waterfalls? The Cascades, Two Step Falls, High and Illgen Falls. Which waterfall(s) did you visit today? _____
